2 CARATTERISTICHE INTERNE

E' esplorata?

- si
parte
no

E' rilevata?

- si
parte
no

Prosegue?

- si
forse
no

100 + - 90
sviluppo spaziale (m) dislivello posit.(m) dislivello negat.(m)

- Grotta turist? si/no
Termale curat.? si/no
Adibita a usi? si/no
Cavità artif? si/no

Livello di documentazione (si, parziale, no)

- Itiner. accesso si/no
Descriz. interno si/no
Docum. fotograf. si/no
Studio geolog. si/no
Ricerc. mineral. si/no
Studio idrolog. si/no
Studio meteor. si/no
Ricerc. biolog. si/no
Ricerc. mediche si/no
Ricerc. paleon. si/no
Ricerc. paletn. si/no
Notizie storic. si/no
Notizie folklor. si/no
Uso relig. si/no
Utilizz. attuale si/no
Storia esplor. si/no

Proprietà idriche della cavità

- assorbent. perm/temp no
emittente perm/temp no
corsi interni perm/temp no
rami fossili si/no
termale si/no
ghiaccio o neve perm/temp no

Percorribilità interna

difficoltà vertic.: n°pozzi/salti 3
occorrono corde si/no
scale occorrenti (totale in metri) 90
difficoltà idriche: n°laghi/bacini
n°sifoni
occorrono imbarcaz. si/no
occorrono respirat. si/no
altre difficoltà

Pericoli

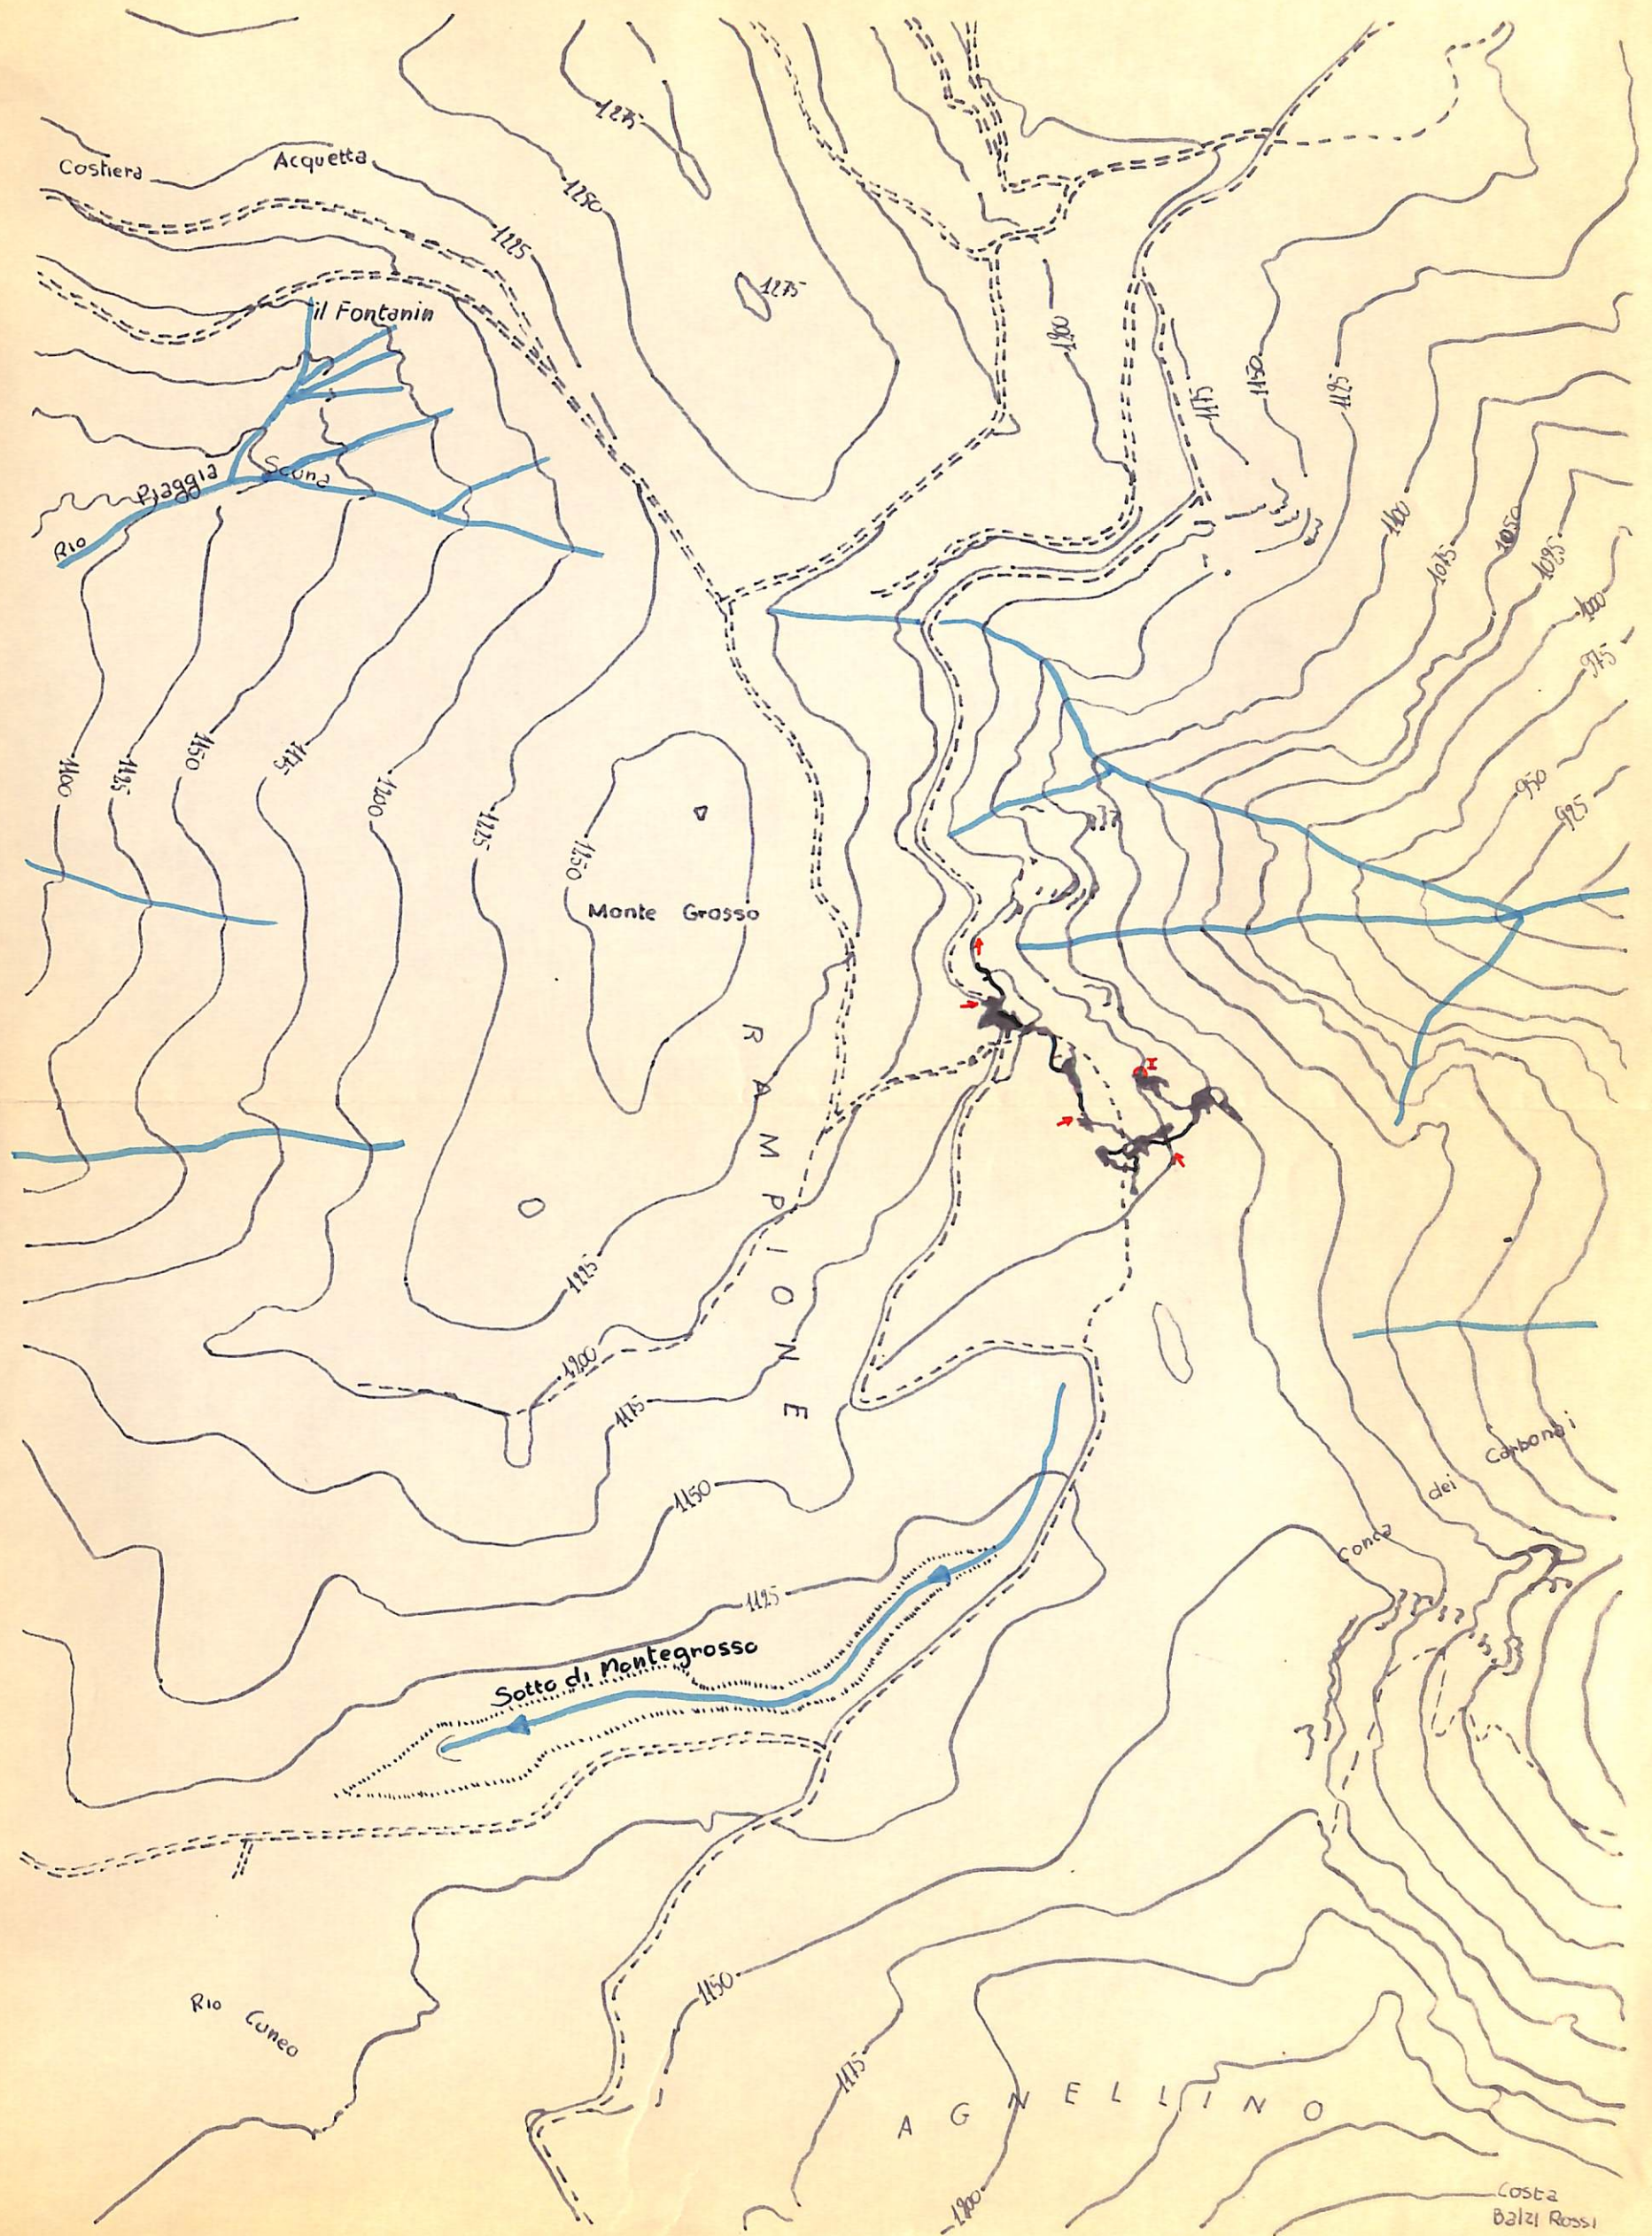

- accesso pericol. sempre stagion. impreved. eccez. no
alluvioni interne sempre stagion. impreved. eccez. no
frammenti interni sempre stagion. impreved. eccez. no
altro pericolo sempre stagion. impreved. eccez. no
